

THE SMARTER WAY TO SLATWALL

Proudly designed & manufactured in Canada

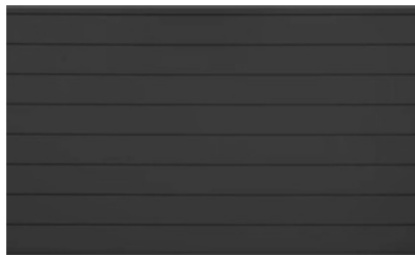

INTRODUCING SMARTSLAT®

Proudly Canadian-Made

At SmartSlat®, we're passionate about crafting exceptional products right here in Canada. From design to manufacturing, every step is infused with the spirit of innovation and quality that defines Canadian craftsmanship.

Join us in celebrating the spirit of Canadian craftsmanship with SmartSlat®. Experience the difference that passion, precision, and pride make in every detail.

DESIGNED WITH PRECISION

Our team of talented designers draws inspiration from Canada's diverse landscapes, culture, and heritage. Whether it's sleek urban aesthetics or rugged wilderness functionality, each design reflects the unique character of our country.

MANUFACTURED WITH CARE

We take pride in our state-of-the-art manufacturing facilities located across Canada. With a commitment to sustainability and ethical practices, the SmartSlat® line is meticulously crafted using high-quality materials and advanced techniques.

INVENTED FOR EXCELLENCE

Innovation is at the heart of everything we do. Our products are born out of a dedication to pushing boundaries and solving on-site challenges. From cutting-edge technology to intuitive functionality, each invention aims to enhance the efficiency of our customers.

BACKED BY EXPERTISE

Behind every product is a team of skilled professionals who have fine-tuned what a smarter slatwall product is. From engineers to craftsmen, our diverse talents come together to ensure that every detail meets our exacting standards.

LET US TRANSFORM YOUR GARAGE INTO A BEAUTIFUL SPACE.

SmartSlat® slatwall is a revolutionary product that offers a beautiful, strong, and simple solution to introduce organization to any space.

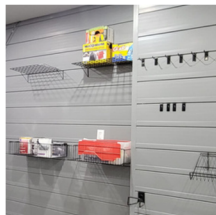

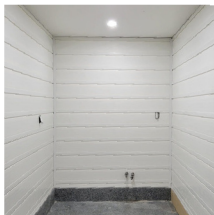

Made from 90% recycled rigid PVC, SmartSlat® is not only durable but also environmentally friendly. Its high density and quality-tested composition ensure that it will last a lifetime.

SmartSlat® can be applied directly onto an open frame with bare studs or onto existing walls. This flexibility makes it suitable for a wide range of spaces, whether it's a garage, workshop, or even a retail store. No matter where you choose to install SmartSlat®, you can be confident that it will provide the ultimate organizational solution.

THE SMARTER WAY TO SLATWALL

Welcome to the future of
organization with SmartSlat® –
the perfect balance of beauty,
strength, and simplicity
designed to transform any
space into an organized haven!

Crafted from 90% recycled, rigid PVC, SmartSlat® is a testament to durability and quality, guaranteed to last a lifetime. Its high-density composition boasts resistance to extreme temperatures, moisture, and fire, ensuring longevity and peace of mind.

Discover the versatility of SmartSlat® with panels available in a spectrum of captivating colors, effortlessly blending into any décor. Installation is a breeze, thanks to its straightforward design, while its unique hidden screw feature adds a touch of sophistication, providing a sleek, designer finish unmatched by traditional organizers.

Experience the power of SmartSlat® with its impressive weight-bearing capacity, capable of holding up to 145 lbs on a single hook thanks to its robust construction and engineering excellence.

Say goodbye to cluttered spaces as SmartSlat® allows for easy interchangeability of panels at any level, providing customizable organization tailored to your needs.

What's more, SmartSlat's® innovative design means it can be applied directly onto open frames with bare studs or concrete walls, eliminating the need for cumbersome framing or drywall backing. Proudly manufactured right here in Canada, SmartSlat® stands as a beacon of eco-consciousness, offering the greenest organizational solution on the market today.

Experience the revolution in organization with SmartSlat® – your trusted partner in creating functional, stylish spaces that inspire productivity and peace. Order your SmartSlat® system today and elevate your surroundings to new heights of efficiency!

INNOVATING SUSTAINABILITY

SmartSlat® utilizes 90% recycled materials in our extrusion process to create high-quality profiles.

1

Raw Material Selection:

We start with carefully sourced recycled PVC materials, ensuring environmental responsibility while maintaining product quality.

2

Preparation:

The recycled PVC undergoes thorough cleaning and processing to remove impurities and achieve the desired material consistency, crucial for the extrusion process.

3

Extrusion:

The prepared PVC material is fed into our state-of-the-art extrusion machine, where it undergoes high pressure and temperature to form the desired profile shape. This process ensures uniformity and precision in every product.

4

Co-Extrusion for Color:

The top portion of the profile is co-extruded with a specialized PVC compound containing color additives. This technique allows us to incorporate vibrant colors seamlessly into the profile, enhancing its aesthetic appeal without compromising structural integrity.

5

Cooling and Calibration:

As the profile emerges from the extrusion die, it passes through a cooling and calibration system, where it is precisely shaped and cooled to the desired dimensions. This step is crucial for achieving consistent quality across all our products.

6

Cutting and Packaging:

Once the profile is fully formed and cooled, it is cut to the required lengths and packaged with care, ready for distribution to our customers.

BENEFITS

Sustainability

By utilizing recycled materials, we contribute to environmental conservation and reduce our carbon footprint.

Quality Assurance

Our advanced extrusion techniques ensure the highest standards of quality and consistency in every profile we produce.

Customization

With co-extrusion capabilities, we offer a wide range of color options to suit various design preferences and project requirements.

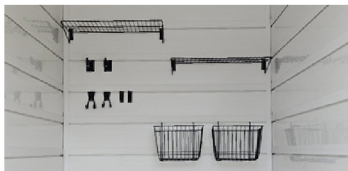

Efficiency

Our streamlined extrusion process maximizes efficiency, allowing us to deliver products promptly and cost-effectively to our customers.

SMARTSLAT IS “SMART”

Our product earns its 'smart' designation by offering unparalleled flexibility in installation. Whether you prefer starting from the bottom, the middle, or the top of the wall, our design accommodates your preference seamlessly. What's more, once installed, our panels enable effortless removal at any level without disturbing those above. It's innovation that works on your terms.

SmartSlat® panels are designed with a unique feature that allows them to be removed at any level without the need to disassemble the entire wall. This means that individual panels can be easily removed and repositioned as needed, providing flexibility and convenience for users. Whether you need to rearrange make adjustments, or perform maintenance behind the panels, SmartSlat® makes it simple and hassle-free. This feature makes our product exceptionally smart, allowing for unparalleled flexibility and ease of use.

THE SMARTSLAT® WALL SYSTEM

ENVIRONMENTALLY FRIENDLY

SMARTSLAT® COMES IN A VARIETY OF DIFFERENT COLORS, IS SIMPLE TO INSTALL, AND HAS HELD THE WEIGHT OF 45LBS ON A SINGLE HOOK! **145LBS WEIGHT TEST WAS WITH THREE 45LBS AND ONE 10LBS WEIGHT PLATES. MORE IMPORTANT THAN WEIGHT PER SQUARE FOOT IS TO ASSESS FOR SAFETY SURROUNDINGS BASED ON WHAT YOU ARE ATTEMPTING TO HANG.**

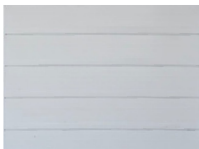

TRIED, TESTED & TRUE

SMARTSLAT® IS ONE OF THE GREENEST ORGANIZATIONAL PRODUCTS ON THE MARKET TODAY. PROUDLY MADE RIGHT HERE IN CANADA OF 90% RECYCLED RIGID, DURABLE, AND QUALITY-TESTED PVC. ITS HIGH DENSITY, HIGH/LOW TEMPERATURE RESISTANT, MOISTURE RESISTANT, AND SELF-EXTINGUISHING COMPOSITION MAKES IT SO LONG-LASTING THAT IT'S GUARANTEED FOR LIFE!

INNOVATIVE DESIGN

THE PATENT PENDING UNIQUE HIDDEN SCREW DESIGN PROVIDES A CLEAN SLEEK HIGH-LEVEL FINISH. IT IS ALSO THE ONLY WALL ORGANIZER SYSTEM WHERE INDIVIDUAL PANELS CAN BE INTERCHANGED AT ANY LEVEL!

INSTALL VERSATILITY

THE SYSTEM CAN BE APPLIED RIGHT ONTO AN OPEN FRAME WITH BARE STUDS OR DIRECTLY ONTO CONCRETE WALLS WITHOUT HAVING TO STRAP OR FRAME AND NO NEED FOR DRYWALL-BACKING! IT CAN ALSO BE INSTALLED BOTTOM-UP ON THE WALL, STARTING IN THE MIDDLE, OR TOP-DOWN!

A well-organized garage with a pegboard wall holding various tools, sports equipment, and cleaning supplies. Items include a bicycle, a broom, a vacuum, a drill, a hammer, a baseball bat, a soccer ball, a football, a helmet, a bag, a box of tools, a spray bottle, a bucket, and a recycling bin.
